

# Template:Portal

This template should be used on portals pages. This page is automatically sorted to category with same name as the portal. The category can be change, if you use the parameter *category*.

## Common example

- `{{Portal|image=<name of the image>|background=<background color>|category=<name of category>}}`

## Example

- `{{Portal|image=Light bulb.png|background=#F5F5DC|category=Biophysics}}`
